

RECYCLING FACILITY

Objects can be given a second life.

3 solutions for disposing of used furniture and objects:

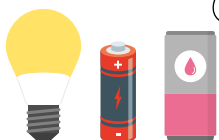

- Donations to charities, in particular the Recycling facility (Lamballe-Armor): www.penthievre-actions.fr,
- Lamballe Terre & Mer waste collection centres,
- volunteer shops.

BATTERIES, LIGHTBULBS, INK CARTRIDGES

Do not put these items in the household waste bin

These items can be deposited in dedicated bins at town halls, waste collection centres and selected sales outlets.

3 QUESTIONS TO ASK YOURSELF TO SORT THE YELLOW BIN PROPERLY

► Is the waste packaging or paper (except shredded paper)?

► Is it empty?

► Is it made in plastic, metal, cardboard or paper?

If the answer is "yes" to all 3 questions: the waste should be put in the yellow bin.

If the answer to any of these questions is "no", the waste is to:

- put in a black bag and then in the **household waste bin**: wooden Camembert boxes, shredded paper (too small for the yellow bin), pens, wipes, paper towels, litter, etc.;
- drop off at the **waste collection centre*** if the item is electronic, has batteries, is DIY or is bulky.

*Addresses and opening hours of waste collection centres at: www.lamballe-terre-mer.bzh
